**Tool nr. 114 - material**

**Developed by:** Dene Magna

**Name of the material**

Identifying high quality research

**Sources**

**Purpose of the material**

- To help educators to identify high quality research;
- To act as an introduction to research for those educators who may be unfamiliar with academic research;
- To help those leading research in institutions to support their colleagues.

**Material**

Online copy of the resource.  
A computer and Internet connection.

**How you can use this material in your practice**

This is useful for those leading Practitioner Inquiry, in order to help to train teacher inquirers. It is also useful as a reference tool for teachers new to inquiry.

**Debrief - reflection and metacognition**

**Feedback on the use of the tool**

Feedback from teachers has been very positive - many were very concerned about using high quality research and felt this gave them more confidence to recognize the good and the not so good.
