Tool nr. 118

Name of the protocol: Statements about organization of education

Sources: Lectoraat BètaDidactiek, Fontys University of applied Sciences

Purpose of the protocol:

This instrument can be used to disclose participants perspectives on evidence informed teaching and discuss them

Materials:

Worksheet with statements

Time:

30 minutes (incl discussion)

Process:

1. Hand out the worksheets to the participants.
2. Fill out the worksheet
3. Collect the most accurate statements of the participants
4. Discuss the results.
5. Read chapter 1 of the frame of reference for more information.

Debrief:

Share the experiences with the protocol

Worksheet: Statements about organization of education

You will find below four propositions on the 'organization of education'. It is about general beliefs about how education should be organized pedagogically and didactically; Answers to questions such as: How is the material presented? what methods are used? How the relationship between teacher and students look like?

For each contrast which of the two statements best matches your views.

<p>Statement A</p> <p>Research findings should be decisive for the organization of education</p>	<p>My view ...</p> <p> <input type="checkbox"/> ... fits much better with Statement A <input type="checkbox"/> ... tends more towards statement A <input type="checkbox"/> ... fits equally well or poorly at both statements <input type="checkbox"/> ... tends more towards statement B <input type="checkbox"/> ... fits much better with Statement B </p>	<p>Statement B</p> <p>Teachers should inform themselves by research findings in the design of their education</p>
<p><input type="checkbox"/> ... fits much better with Statement A</p> <p><input type="checkbox"/> ... tends more towards statement A</p> <p>My view... <input type="checkbox"/> ... fits equally well or poorly at both statements</p> <p><input type="checkbox"/> ... tends more towards statement C</p> <p><input type="checkbox"/> ... fits much better with Statement C</p>		<p><input type="checkbox"/> ... fits much better with Statement B</p> <p><input type="checkbox"/> ... tends more towards statement B</p> <p>My view... <input type="checkbox"/> ... fits equally well or poorly at both statements</p> <p><input type="checkbox"/> ... tends more towards statement D</p> <p><input type="checkbox"/> ... fits much better with Statement D</p>
<p>Statements C</p> <p>Insights from people outside education should be decisive in setting up education</p>	<p>My view ...</p> <p> <input type="checkbox"/> ... fits much better with Statement C <input type="checkbox"/> ... tends more towards statement C <input type="checkbox"/> ... fits equally well or poorly at both statements <input type="checkbox"/> ... tends more towards statement D <input type="checkbox"/> ... fits much better with Statement D </p>	<p>Statements D</p> <p>Teachers should organize their education based on their own experience (craftsmanship)</p>
