

ERASMUS+

2014-1-BE02-KA201-000432

Protocol Reference Number: 63

Developed by: NEI

Title

Using ICT

Sources

APPLICATIONS: Padlet, Linot

Purpose of the protocol

Connections/icebraking/stay connected; Brainstorm, organize, prioritize and act on the best ideas, in the same room or around the world, on a realtime sticky note whiteboard.

These tools can be used for a variety of purposes. Either they can serve as a kind of an online brainstorming when gathering ideas about different phases of work. One can use it prior to the meeting, just to check out the participants opinion, prior knowledge, group development etc.

Materials

none; the only requirement is the internet access

Time

not limited; the facilitator has to set the beginning and the end of an activity

Roles

- Facilitator
- Participant/student
- PLC

Process

Steps:

1. The facilitator provides the link to the online space
2. The facilitator sets the task and the requirements
3. The participants contribute to the task via sticky notes (give opinions on the common topic/problem/dilemma, share materials ...)
